

DOUBLE STOREY HOME DESIGNS BY:

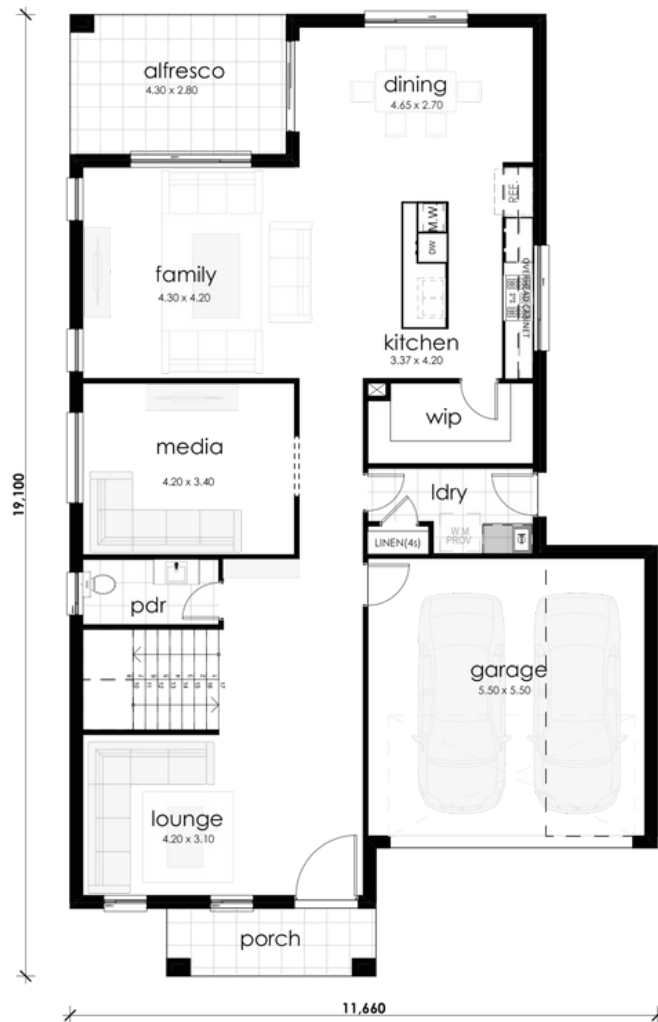

PAVILLION

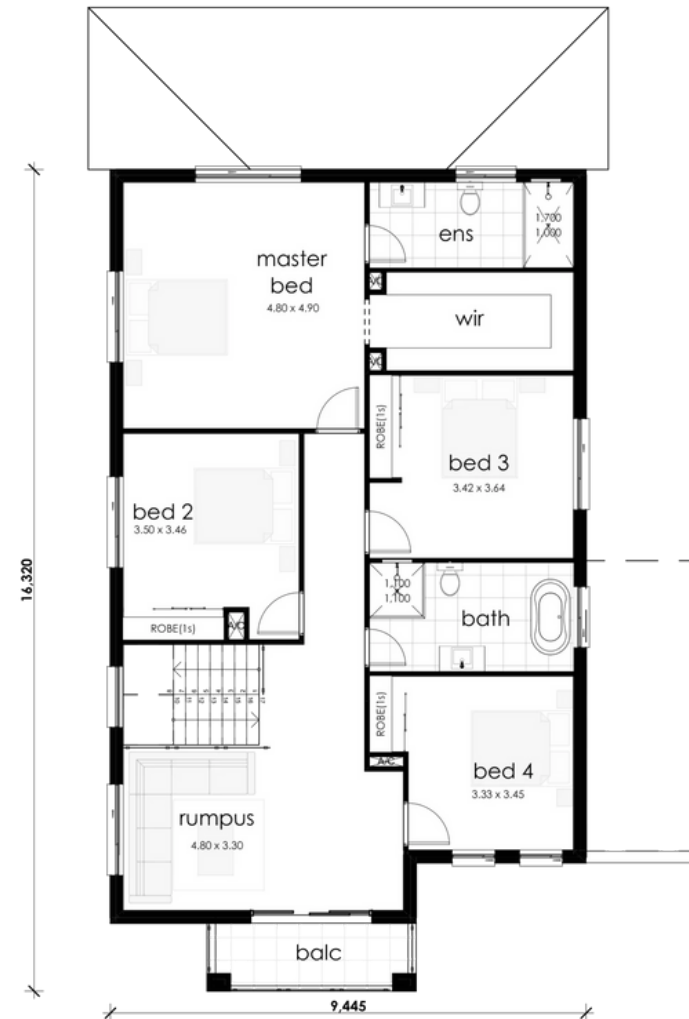

The design of the Pavilion is uncluttered and light, with the ideal proportion of formal and informal areas. The layout of this design is focused on utilizing natural light and feeling as open as possible, from the open lounge that flows off the foyer to the open-plan family and dining room to the rear. The open plan layout and the interconnection of family, dining, and kitchen provide open ventilation and a breezy vibe. The dining and family areas flow easily onto the outside space, and the kitchen is ideally situated off these spaces.
